

## Summer school August 2021 – Pupil and Parent Feedback

The food was great, the only negative was no dessert!

My daughter wasn't able to make pizza due to the assessments which check was disappointed about! Otherwise a very positive week and a relief from my perspective that she is comfortable starting a school she had not set foot in up until Monday. Thank you

My son found the summer school extremely enjoyable and it's enabled him to gain confidence and meet new friends. This has made the transition from primary school much easier for him and has alleviated many of my concerns as a parent.

Thank you for putting on the summer school!

X absolutely loved summer school.

I feel the transition will be made much easier by attending and will make the first day a lot less intimidating.

It is a great idea and he thoroughly enjoyed

Many thanks

My daughter enjoyed summer club although was very apprehensive at first, she wasn't happy it was during the holidays but unfortunately in my eyes it had to be done and I feel it's been beneficial to her and it's given her a head start in starting. She did enjoy the cooking and hands on activities and would like the recipe for the gingerbread men. Many thanks.
